

## Frequently asked questions about Alcolin Solderlene

**1. I need an adhesive that is petrol proof.**

Solderlene is 100% petrol-resistant as well as being waterproof, steam-proof, oil-proof and heat-resistant.

**2. Can Solderlene conduct electricity?**

No it does not conduct electricity. Bostik Super Gasket and Bostik Car due to their carbon black content conduct electricity.

**3. What can Solderlene be used for?**

It is ideal for repairing holes and faulty seams on metals, fixing radiator and petrol leaks, repairing kettles, and as an aluminium coloured paint.

**4. Is Solderlene suitable for contact with drinking water?**

Once dried it is safe for contact with drinking water.
