

Lazy Lap Table

You will need:

- Alcolin Professional Wood Glue
- One 22mm-thick MDF board, cut into
- One 600 x 270mm piece (top)
- Two 190 x 270mm pieces (supports)

Instructions:

Mark the position of the supports on the short ends of the top. Apply Alcolin Professional Wood Glue along each mark and position the supports in place. Clamp and allow to dry completely before sanding the edges and joints to a smooth finish. Finish the build by painting the table a colour of your choice.
